

# You make the call

Friday, 2-27-26

Situation in a game yesterday:

Bases loaded, less than 2 outs. Infield fly, which umpires call. Ball hits the ground and bounces to hit base runner retreating to second base. Batted ball has not passed a defensive player. Is that runner out?

Scroll down ...

We looked it up: Runner retreating to last legally obtained base is NOT out. If he were attempting to advance from his last legally obtained base, he would be out.
